

Amendments to the Claims:

The listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-61 (canceled)

Claim 62 (previously amended) A method for inducing an immune response in a human or animal wherein said human or animal has a deficiency in CD4+ T cells, and said method comprising the step of administering to said human or animal an immunogenic composition comprising an inactivated intact virus, whereby a humoral immune response specific for the virus is induced.

Claim 63 (canceled)

Claim 64 (previously amended) The method of claim 62 wherein said virus is an orthomyxovirus or a paramyxovirus.

Claim 65 (previously amended) The method of claim 64 wherein said virus is influenza virus.

Claim 66 (canceled)

Claim 67 (previously added) The method of claim 62 wherein said virus is inactivated with formalin or beta-propiolactone.

Claim 68 (previously added) The method of claim 62 wherein said virus is an enveloped virus.

Claim 69 (previously added) The method of claim 68 wherein said enveloped virus is selected from the group of inactivated or attenuated viruses consisting of simian immunodeficiency virus, human immunodeficiency virus, feline immunodeficiency virus, or bovine immunodeficiency virus, rabies virus, measles virus, vesicular stomatitis virus, flavivirus, alphavirus and herpes virus.

Claim 70 (previously added) A method for inducing an immune response in a human or animal wherein said human or animal has a deficiency in CD4+ T cells, and said method comprising the step of administering to said human or animal an immunogenic composition comprising an inactivated influenza virus, whereby a humoral immune response specific for the virus is induced.
